

LOGISTICS VEHICLE SYSTEM REPLACEMENT

LVSr

INNOVATION DRIVES FORWARD.

THIS IS OSHKOSH DEFENSE.

At Oshkosh Defense, we stand behind those who dedicate their lives to protecting others. Every day we strive to meet or exceed our customers' ever-changing needs with next generation defense technologies and advanced systems. We operate with unparalleled commitment to those who depend on our products and services worldwide to perform their missions.

Redefine mobility, maintainability and reliability for the heavy fleet.

The unmatched mobility and multiple capabilities of the Oshkosh Defense® Logistics Vehicle System Replacement (LVS

R) make it critical to mission success. The LVS

R complements the Medium Tactical Vehicle Replacement (MTVR) fleet, creating a logistical tandem that ensures the continued maneuverability of forces. It incorporates the TAK-4® independent suspension system that allows it to go over rocks, ruts and rubble with ease, and has parts commonality and similar maintenance to streamline service and support, reduce downtime and increase efficiencies.

For the most sophisticated missions in the most challenging environments, the LVS

R provides the power and performance military personnel can rely on. And with the full life-cycle support provided by Oshkosh, the LVS

R will be at the peak of readiness – for any and every mission.

LVS^R | LOGISTICS VEHICLE SYSTEM REPLACEMENT

One of the world's most technologically-advanced logistics platforms, the Oshkosh Defense® LVS^R is capable of performing multiple missions. With a 22.5-ton (20412 kg) on-road/16.5-ton (14969 kg) off-road payload, it has the capacity to haul whatever the mission requires, and with its 600 horsepower diesel engine, it also has the power. The Command Zone™ integrated control and diagnostics system means effortless monitoring of critical components from within the cab. The factory-installed armor is integrated right into the design, providing greater safety for military personnel. The LVS^R has the extreme capabilities and power to perform, when and where the mission calls.
