

WHEELED TANKER

THIS IS OSHKOSH DEFENSE.

At Oshkosh Defense, we stand behind those who dedicate their lives to protecting others. Every day we strive to meet or exceed our customers' ever-changing needs with next generation defense technologies and advanced systems. We operate with unparalleled commitment to those who depend on our products and services worldwide to perform their missions.

WHEELED TANKER

Expanding capabilities. Supporting the mission.

Oshkosh Defense® wheeled tankers are highly reliable, high-performing tactical vehicles vital to supporting forward locations and the military personnel assigned to the mission. Whether hauling water or fuel, these tankers provide unparalleled tactical and strategic mobility, even in the harshest terrain and the most extreme environments. Superior towing power is provided by the 6x6 Medium Tactical Vehicle Replacement (MTVR) tractor – a field-tested, combat-proven vehicle that provides unmatched reliability, rugged performance and remarkable maneuverability. The MTVR, with its power and agility, significantly expands the on- and off-road supply capabilities of the tankers. And with the full life-cycle support of Oshkosh, the wheeled tankers will always be ready to go. Wherever they need to go. Whenever they need to go.

WHEELED TANKER

Advanced technologies incorporated into the MTVR tractor design assure the mobility and reliability to take the wheeled tankers to even the most remote location. With the TAK-4® independent suspension system, central tire inflation, all-wheel drive and rear steer, the MTVR and wheeled tanker combination offers mobility that greatly enhances the flexibility of deployed forces. Parts and tools commonality simplifies training, increases interoperability and reduces spare parts storage. And because both the MTVR tractor and wheeled tanker-trailer combinations are transportable by tactical aircraft, they can be quickly and efficiently deployed in support of military personnel worldwide.

WHEELED TANKER

Variants

20000 L (5,280 gal.) Close Support Tanker (CST)

18000 L (4,755 gal.) Close Support Tanker for Water (CSTW)

15000 L (3,960 gal.) Tactical Aircraft Refueller (TAR)

Supporting the mission and expanding the capabilities of the armed forces – with power, performance, versatility and reliability. Oshkosh Defense® wheeled tankers.
