

**MIKE IVY**

**Senior Vice President, International Programs and Global Product Support  
Oshkosh Defense**

Mike Ivy is senior vice president of International Programs and Global Product Support. Ivy leads Oshkosh Defense's international business unit serving military and security organizations around the world. Ivy is also responsible for life-cycle sustainment support of all Oshkosh Defense products and aftermarket services. These include product training, technical manuals, provisioning, spare parts, kits, field service operations, warranty and related technical services. He leads the global Oshkosh Defense product and product support network to include the United States, Canada, Mexico, United Kingdom, Afghanistan, the Middle East, Africa and the Far East.

Ivy joined Oshkosh Corporation in 2004 after a 27-year Army career. His previous positions include director of Army Tactical Wheeled Vehicle production programs, vice president of Defense Aftermarket, and vice president and general manager of Army Programs. In the latter position, he was responsible for development, production and sustainment of Oshkosh's programs with the U.S. Army including the Heavy Expanded Mobility Tactical Truck (HEMTT), the Palletized Load System (PLS), the Heavy Equipment Transporter (HET) and the Family of Medium Tactical Vehicles (FMTV).

For most of his Army career, Ivy was a field logistian. He served at locations worldwide. His experiences include command and staff positions in operational theaters and with NATO and the U.S. Army Training and Doctrine Command.

Ivy holds a bachelor's degree from the U.S. Military Academy and master's degrees from Georgia Tech and the National War College.

Oshkosh Defense delivers leading-edge tactical wheeled vehicles and life cycle sustainment services to military and security forces around the globe. For over 100 years, Oshkosh has designed, tested and manufactured a robust portfolio of heavy, medium, light and highly protected military vehicles and technologies to support the U.S. Armed Forces and its allies.

Every Oshkosh vehicle is backed by a dedicated team of technical experts, a global logistics and supplier network that spans six continents, and a complete range of life cycle sustainment services to optimize fleet readiness and performance.
